Clause 5. Prescribing that the local provisions that enable the local government to designate fees under section 20 (4) or under section 63, which are still effective on the day before this Ministerial Regulation comes into force, shall continue to be in force insofar as they are not inconsistent with or contrary to the provisions of this Ministerial Regulation until there are local provisions prescribing that the local government shall have power to designate fees under section 20 (4) or under section 63 in the execution of this Ministerial Regulation, as the case may be.

Given on the 9th Day of September 2016

Piyasakol Sakolsatayadorn
Minister of Public Health

Note:- The reason for the promulgation of this Ministerial Regulation is as follows.

Whereas the prescribing of fees for sewage or waste collection, hauling, and disposal services, and fees for issuance of licenses, letter of notification in accordance with the Public Health Act B.E.2535 (1992), which is prescribed in the Ministerial Regulation on fees for sewage and waste collection, hauling, and disposal services and other charges B.E.2545 (2002) has been in force for a long time, and, at present, the local government is liable for a great amount of expenses in sewage and waste operations resulting in the desire to improve service fees to suit the economic situations and expense liabilities, and whereas section 20 (4) and section 63 of the Act indicates that the local government shall have power to issue local provisions, prescribing fees that do not exceed the rates prescribed in the Ministerial Regulations in accordance with criteria, procedure, and conditions, it is therefore necessary to issue this Ministerial Regulation.
